SPIE Awards \$1,000 Scholarship to Constance Teoh Kang Ting, Ding Ruo Jun and Song Majinyang

BELLINGHAM, Washington, USA – May 14, 2009 – SPIE has awarded a \$1,000 SPIE Optical Science and Engineering Scholarship to Constance Teoh Kang Ting, Ding Ruo Jun, and Song Majinyang, at the Raffles Girls' Secondary School in Singapore.

Under the direction of Prof. Anand Asundi, Nanyang Technological University, this group of girls is working on a project on Digital Holography. Their research centered on testing the applications and specifications of a Digital Holography set-up and investigated the use as a means of surface topography analysis of micro-devices.

In 2009 SPIE will be awarding \$292,000 in scholarships to 116 outstanding students based on their potential for long-range contribution to optics and photonics, or a related discipline. Award-winning applicants were evaluated and approved by the SPIE Scholarship Committee.

For more information on SPIE's scholarship program, visit spie.org/scholarships.

SPIE is the international optics and photonics society, founded in 1955 to advance light-based technologies. Serving more than 188,000 constituents from 138 countries, the Society advances emerging technologies through interdisciplinary information exchange, continuing education, publications, patent precedent, and career and professional growth. SPIE annually organizes and sponsors approximately 25 major technical forums, exhibitions, and education programs in North America, Europe, Asia, and the South Pacific. In 2008, the Society provided \$1.9 million for scholarships, grants, and other activities supporting research and education around the world. For more information, visit SPIE.org.
